*Designates that a specific chemical identity and/or percentage of composition has been withheld as a trade secret.

### 4. First-aid measures

**Inhalation**

Move to fresh air. If breathing is difficult, trained personnel should give oxygen. Call a physician if symptoms develop or persist. Under normal conditions of intended use, this material is not expected to be an inhalation hazard.

**Skin contact**

Immediately flush skin with plenty of water. Take off contaminated clothing and wash before reuse. Get medical attention if symptoms occur.

**Eye contact**

Rinse thoroughly with plenty of water for at least 15 minutes and consult a physician.
**Ingestion**
If swallowed, rinse mouth with water (only if the person is conscious). If ingestion of a large amount does occur, call a poison control center immediately. Do not induce vomiting without advice from poison control center.

**Most important symptoms/effects, acute and delayed**
Direct contact with eyes may cause temporary irritation.

**Indication of immediate medical attention and special treatment needed**
No specific antidotes are recommended. Treat according to locally accepted protocols. For additional guidance, refer to the current prescribing information or to the local poison control information center.

**General information**
In the case of accident or if you feel unwell, seek medical advice immediately (show the label where possible). Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Pre-placement and periodic health surveillance is not usually indicated. The final determination of the need for health surveillance should be determined by local risk assessment.

---

**5. Fire-fighting measures**

**Suitable extinguishing media**
- Foam.
- Dry chemical powder.
- Carbon dioxide (CO2).

**Unsuitable extinguishing media**
- Water.

**Specific hazards arising from the chemical**
During fire, gases hazardous to health may be formed.

**Special protective equipment and precautions for firefighters**
Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

**Fire fighting equipment/instructions**
In the event of fire, cool tanks with water spray. Cool containers exposed to heat with water spray and remove container, if no risk is involved.

**Specific methods**
Move containers from fire area if you can do so without risk.

**General fire hazards**
Assume that this product is capable of sustaining combustion.

---

**6. Accidental release measures**

**Personal precautions, protective equipment and emergency procedures**
Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Keep out of low areas. Wear appropriate personal protective equipment. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.

**Methods and materials for containment and cleaning up**
Stop the flow of material, if this is without risk. Dike far ahead of spill for later disposal. Use water spray to reduce vapors or divert vapor cloud drift. Prevent entry into waterways, sewer, basements or confined areas. Following product recovery, flush area with water.

**Environmental precautions**
Avoid discharge into drains, water courses or onto the ground.

---

**7. Handling and storage**

**Precautions for safe handling**
Keep away from heat, sparks and open flame. Avoid prolonged or repeated contact with skin. Avoid prolonged exposure. Use only in well-ventilated areas.

**Conditions for safe storage, including any incompatibilities**
Keep away from heat and sources of ignition. Store in original tightly closed container. Store in a cool, dry place out of direct sunlight. Store away from incompatible materials (see Section 10 of the SDS).

---

**8. Exposure controls/personal protection**

**Occupational exposure limits**

### Biological limit values

No biological exposure limits noted for the ingredient(s).

### Appropriate engineering controls

General ventilation normally adequate. An Exposure Control Approach (ECA) is established for operations involving this material based upon the OEL/Occupational Hazard Category and the outcome of a site- or operation-specific risk assessment.

### Individual protection measures, such as personal protective equipment

**Eye/face protection**

Not normally needed. If contact is likely, safety glasses with side shields are recommended.

**Skin protection**

- **Hand protection**
  
  Not normally needed. For prolonged or repeated skin contact use suitable protective gloves.

- **Other**
  
  Not normally needed. Wear suitable protective clothing as protection against splashing or contamination.

**Respiratory protection**

No personal respiratory protective equipment normally required. Use a NIOSH/MSHA approved respirator if there is a risk of exposure to dust/fume at levels exceeding the exposure limits. When workers are facing concentrations above the exposure limit they must use appropriate certified respirators.

**Thermal hazards**

Wear appropriate thermal protective clothing, when necessary.

### General hygiene considerations

Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. For advice on suitable monitoring methods, seek guidance from a qualified environment, health and safety professional.

### 9. Physical and chemical properties

#### Appearance

- **Physical state**: Liquid.
- **Form**: Cream.
- **Color**: Not available.
- **Odor**: Not available.
- **Odor threshold**: Not available.
- **pH**: Not available.
- **Melting point/freezing point**: Not available.
- **Initial boiling point and boiling range**: Not available.
- **Flash point**: > 233.6 °F (> 112 °C) Closed Cup (Estimation based on components).
- **Evaporation rate**: Not available.
- **Flammability (solid, gas)**: Not available.
**Upper/lower flammability or explosive limits**

- **Flammability limit - lower (%)**
  - Not available.
- **Flammability limit - upper (%)**
  - Not available.
- **Explosive limit - lower (%)**
  - Not available.
- **Explosive limit - upper (%)**
  - Not available.

**Vapor pressure**
- Not available.

**Vapor density**
- Not available.

**Relative density**
- Not available.

**Solubility(ies)**

- **Solubility (water)**
  - Not available.
- **Partition coefficient (n-octanol/water)**
  - Not available.

**Auto-ignition temperature**
- Not available.

**Decomposition temperature**
- Not available.

**Viscosity**
- Not available.

**10. Stability and reactivity**

**Reactivity**
- Not available.

**Chemical stability**
- Material is stable under normal conditions.

**Possibility of hazardous reactions**
- No dangerous reaction known under conditions of normal use.

**Conditions to avoid**
- Keep away from heat, sparks and open flame. Contact with incompatible materials.

**Incompatible materials**
- Strong oxidizing agents.

**Hazardous decomposition products**
- Irritating and/or toxic fumes and gases may be emitted upon the products decomposition.

**11. Toxicological information**

**Information on likely routes of exposure**

- **Inhalation**
  - Prolonged inhalation may be harmful.
- **Skin contact**
  - Health injuries are not known or expected under normal use.
- **Eye contact**
  - Direct contact with eyes may cause temporary irritation.
- **Ingestion**
  - Expected to be a low ingestion hazard.

**Symptoms related to the physical, chemical and toxicological characteristics**
- Direct contact with eyes may cause temporary irritation.

**Information on toxicological effects**

**Acute toxicity**

* Estimates for product may be based on additional component data not shown.

**Skin corrosion/irritation**
- Prolonged skin contact may cause temporary irritation.

- **Irritation Corrosion - Skin**
  - GANTREZ: 0, Read across from similar polymers
  - Result: Non-irritant

- **Serious eye damage/eye irritation**
  - Direct contact with eyes may cause temporary irritation.

- **Eye**
  - GANTREZ: 0, Read across from similar polymers
  - Result: Minimal Irritant

**Respiratory or skin sensitization**
- Not available.

- **Skin sensitization**
  - This product is not expected to cause skin sensitization.

**Germ cell mutagenicity**
- No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.

- **Mutagenicity**
  - GANTREZ: 0, Read across from similar polymers
  - Result: Not considered to be genotoxic

**Carcinogenicity**
- This product is not considered to be a carcinogen by IARC, ACGIH, NTP, or OSHA.

- **PHARMACEUTICAL GRADE PETROLATUM**
  - >= 3000 mg/kg/day 2 year bioassay, oral administration
  - Result: NOAEL
  - Species: Rat
  - Dermal application
  - Result: Negative
  - Species: Mouse

**IARC Monographs. Overall Evaluation of Carcinogenicity**
- LIGHT MINERAL OIL (CAS 8042-47-5)
  - 3 Not classifiable as to carcinogenicity to humans.

- Not regulated.

**US. National Toxicology Program (NTP) Report on Carcinogens**
- Not listed.

**Reproductive toxicity**
- This product is not expected to cause reproductive or developmental effects.

**Specific target organ toxicity - single exposure**
- Not classified.

**Specific target organ toxicity - repeated exposure**
- Not classified.

**Aspiration hazard**
- Not likely, due to the form of the product.

**Chronic effects**
- Prolonged inhalation may be harmful.

**Further information**
- Occupational exposure to the substance or mixture may cause adverse effects.

**12. Ecological information**

**Ecotoxicity**
- The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

### Persistence and degradability

Not available.

### Photolysis

**Half-life (Photolysis-atmospheric)**
- L-MENTHOL: 16 Hours Estimated
- LIGHT MINERAL OIL: < 1 Days Estimated

### Biodegradability

**Percent degradation (Aerobic biodegradation-inherent)**
- SODIUM CARBOXYMETHYL CELLULOSE: 7 %, 28 days Zahn-Wellens, Activated sludge

**Percent degradation (Aerobic biodegradation-ready)**
- L-MENTHOL: 0 %, 28 days
- LIGHT MINERAL OIL: 24 %, 28 days Modified Sturm test, Activated sludge

### Bioaccumulative potential

**Partition coefficient n-octanol / water (log Kow)**
- L-MENTHOL: 3.3
- PROPYL PARABEN: 3.04

**Bioconcentration factor (BCF)**
- L-MENTHOL: 1 - 15 Measured, Cyprinus carpio, carp

### Mobility in soil

**Adsorption**
- Soil/sediment sorption - log Koc: L-MENTHOL 3.18 Estimated

### Mobility in general

**Volatile**
- Henry’s law: L-MENTHOL: 0.000015 atm m³/mol Estimated

**Distribution**
- Octanol/water distribution coefficient log DOW: PROPYL PARABEN 3.04

### Other adverse effects

Not available.
13. Disposal considerations

Disposal instructions: Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Do not allow this material to drain into sewers/water supplies. Do not contaminate ponds, waterways or ditches with chemical or used container. Dispose of contents/container in accordance with local/regional/national/international regulations.

Local disposal regulations: Dispose in accordance with all applicable regulations.

Hazardous waste code: The waste code should be assigned in discussion between the user, the producer and the waste disposal company.

Waste from residues / unused products: Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).

Contaminated packaging: Empty containers should be taken to an approved waste handling site for recycling or disposal. Since emptied containers may retain product residue, follow label warnings even after container is emptied.

14. Transport information

DOT: Not regulated as a dangerous good.

IATA: Not regulated as dangerous goods.

IMDG: Not regulated as dangerous goods.

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code: MARPOL Annex II applies to liquids used in a ship’s operation that pose a threat to the marine environment. These materials may not be transported in bulk.

15. Regulatory information

US federal regulations

SARA 304 Emergency release notification: Not regulated.

Superfund Amendments and Reauthorization Act of 1986 (SARA)

Hazard categories
Immediate Hazard - No
Delayed Hazard - No
Fire Hazard - No
Pressure Hazard - No
Reactivity Hazard - No

SARA 302 Extremely hazardous substance
Not listed.

SARA 311/312 Hazardous chemical
No

SARA 313 (TRI reporting)
Not regulated.

Other federal regulations

Clean Air Act (CAA) Section 112 Hazardous Air Pollutants (HAPs) List
Not regulated.

Clean Air Act (CAA) Section 112(r) Accidental Release Prevention (40 CFR 68.130)
Not regulated.

Safe Drinking Water Act (SDWA)
Not regulated.
US state regulations

US. California Controlled Substances. CA Department of Justice (California Health and Safety Code Section 11100)
Not listed.

US. California. Candidate Chemicals List. Safer Consumer Products Regulations (Cal. Code Regs, tit. 22, 69502.3, subd. (a))
PHARMACEUTICAL GRADE PETROLATUM (CAS 8009-03-8)
PROPYL PARABEN (CAS 94-13-3)

US. Massachusetts RTK - Substance List
LIGHT MINERAL OIL (CAS 8042-47-5)
PHARMACEUTICAL GRADE PETROLATUM (CAS 8009-03-8)

US. New Jersey Worker and Community Right-to-Know Act
Not listed.

US. Pennsylvania Worker and Community Right-to-Know Law
LIGHT MINERAL OIL (CAS 8042-47-5)
PHARMACEUTICAL GRADE PETROLATUM (CAS 8009-03-8)

US. Rhode Island RTK
Not regulated.

US. California Proposition 65
California Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65): This material is not known to contain any chemicals currently listed as carcinogens or reproductive toxins.
