*****FOR IMMEDIATE RELEASE*****

NEW FRANKEN, WI – February 13, 2018

Dental Health Products, Inc. (DHPI) announces new partnership with DryShield.

DryShield is dedicated to equipping dentists with new-to-the-market innovations that enable them to focus on what they are best at while stripping away all other activities.

The DryShield solution is a patented, autoclavable isolation system that combines all the tasks of a high-suction evacuator, bite block, dry angles, cotton rolls, and gauzes in one sleek device. This intelligent breakthrough in isolation is the result of 3 years of R&D innovation, designed by a dentist for dentists. DryShield represents our commitment to creating new products that dentists see value from every day.
