NEW FRANKEN, WI—Dental Health Products, Inc. supports Wisconsin's under privileged with a donation of dental products including MirrorLites from Defend to the WDA's Mission of Mercy (MOM). This year's event scheduled for June 25-26, at Sheboygan North High School in Sheboygan, WI, will provide free dental care to hundreds of area patients on a first-come, first-serve basis. DHPI along with other area businesses and organizations will donate equipment and or services with the goal of providing over \$1 million in free dental care. The difference MOM makes in people's lives is more than apparent in this excerpt from a letter dated June 26, 2009 from patient Rick P. of La Crosse, *"The dates of June 25th and 26th will go down in the minds of a chosen few as the day they stopped frowning and started smiling from ear to ear once again, thus giving society a shot of true confidence in these times, that humanity and kindness still live."*¹ Vice President of Sales & Marketing Steve Desautel states, "Dental Health Products, Inc. is proud to contribute to such a worthy cause and we look forward to participating in similar activities in the future."

Dr. Mark Huberty (Local Co-Chairman of MOM) receives a donation of lighted mirrors from DHPI Rep Joe Steffens.
